

YOU'VE HEARD THIS SONG BEFORE!

“I foresee a marked deterioration in American music...and a host of other injuries to music in its artistic manifestations, by virtue — or rather by vice — of the multiplication of the various music-reproducing machines...”

—John Philip Sousa on the Player Piano (1906)

“The public will not buy songs that it can hear almost at will by a brief manipulation of the radio dials.”

—Record Label Executive on FM Radio (1925)

“But now we are faced with a new and very troubling assault on our fiscal security, on our very economic life and we are facing it from a thing called the videocassette recorder...”

—MPAA on the VCR (1982)

“When the manufacturers hand the public a license to record at home . . . not only will the songwriter tie a noose around his neck, not only will there be no more records to tape [but] the innocent public will be made an accessory to the destruction of four industries.”

—ASCAP on the Cassette Tape (1982)

Again and again, the content industry has asked you to step in and stop new technologies.

Again and again, you've chosen free markets over regulation.

The new target is satellite radio — a legal technology that provides exciting new services to 10 million Americans, while paying huge revenues to the record labels.

It's time to say Enough is Enough.
Let Innovation Work —
Oppose Technology Mandates on Satellite Radio.
